My Expertise

Skills & Technologies

I've worked with a wide range of technologies in the web development world. Here are the areas I'm most experienced in.

Frontend Development

Building responsive, accessible, and performant user interfaces with React, Next.js, and modern CSS.

React Next.js TypeScript
Tailwind CSS Framer Motion

Backend Development

Creating robust server-side applications and APIs with Node.js, Express, and various databases.

Node.js Express NestJS
REST API GraphQL

Database Management

Designing and optimizing database schemas and queries for performance and scalability.

MongoDB PostgreSQL Firebase
Prisma Redis

Full Stack Architecture

Designing complete application architectures with proper separation of concerns.

Microservices Monorepos Docker
CI/CD Testing

Mobile Development

Building cross-platform mobile applications with React Native and native technologies.

React Native Expo iOS Android
Flutter

DevOps & Security

Implementing secure deployment pipelines and infrastructure as code practices.

AWS Azure GitHub Actions
OAuth JWT

Currently learning: Web3 & Blockchain development

My Projects

Crafting Digital Experiences

I build exceptional and accessible digital experiences for the web.

Hi, I'm Muzammil Riaz

I'm a full-stack developer with a passion for creating beautiful,
functional, and user-centered digital experiences. With over 5
years of experience, I've worked with startups and established
companies to bring their ideas to life.

When I'm not coding, you'll find me hiking, reading sci-fi novels,
or experimenting with new cooking recipes.

My Skills

Frontend	Backend	Tools
React	Node.js	Git
Next.js	Express	Figma
Tailwind CSS	MongoDB	VS Code

Framer
Motion

Firebase
